

# 2024 Premium Value Formulary

Effective July 1, 2024

## Understanding your formulary

### What is a formulary?

A formulary is a list of prescribed medications or other pharmacy care products, services or supplies chosen for their safety, cost, and effectiveness. Medications are listed by categories or classes and are placed into cost levels known as tiers. It includes both brand and generic prescription medications.

### What are tiers?

Tiers are the different cost levels you pay for a medication. Each tier is assigned a cost, set by your employer or plan sponsor.

The formulary gives you choices so you and your doctor can decide your best course of treatment. In this formulary, brand-name medications are shown in UPPERCASE (for example, BRAND DRUG). Generic medications are shown in lowercase (for example, generic drug).

## Reading your formulary

### About this formulary

Where differences exist between this list and your benefit plan, the benefit plan documents rule. This is not a complete list of your covered medications. Please review your benefit plan documents for full details. Not all formulary alternatives listed in this document may be appropriate for your specific condition. Please talk to your doctor.

### Tier information

Drug tier	Includes	Helpful tips
Tier 1	\$ Lower-cost medications	Brand name and generic medications can be found in any of the 4 tiers. The lower the tier, the less your medications will cost.
Tier 2	\$\$ Low-cost medications	
Tier 3	\$\$\$ Mid-range cost medications	
Tier 4	\$\$\$\$ Higher-cost medications	

### Drug list information

PA	<b>Prior authorization</b> - Your doctor is required to give Optum Rx more information to determine coverage.
QL	<b>Quantity limit</b> - Medication may be limited to a certain quantity.
SP	<b>Specialty medication</b> - Medication is designated as specialty.
ST	<b>Step therapy</b> - Must try lower-cost medication(s) before a higher-cost medication can be covered.
