

# Managed Transplant Program

More than 1,200 self-funded employers depend on the Optum® Managed Transplant Program (MTP) to manage the clinical and financial aspects of their transplant cases.<sup>1</sup>

By transferring risk to Optum, employers pay a predictable monthly premium, while Optum pays virtually all claims associated with transplant cases. Employers value this fully insured carve-out product to help control costs, mitigate risk and enhance both the clinical and patient experience for transplant episodes.

## A market leader for value

The Managed Transplant Program protects self-funded groups while enhancing the clinical experience for patients by partnering them with experienced transplant nurse case managers who help educate and guide them through the transplant experience.

## Nationwide Center of Excellence (COE) transplant network<sup>2</sup>

**92%**  
within 100 miles

**98%**  
within 250 miles

**99%**  
within 500 miles

Transplant facility

## Designed to address coverage gaps while reducing costs

Comprehensive program designed to cover virtually all transplant-related expenses through one year post-transplant

### First-dollar coverage

Covers transplant-related expenses from evaluation through 365 days post-transplant, including immunosuppressant drugs, for all solid organ and blood and marrow transplants

- No deductibles, coinsurance or copays
- Includes all solid organ and blood and marrow transplants

### No pre-existing clause or lasering

Protection for the full population begins as soon as coverage is bound.

- Unlimited lifetime benefit for transplant services preserves annual max benefit of underlying major medical coverage
- Stop-loss premium credits typically result once coverage is in place

### Predictable program

- Minimizes future stop-loss premium increases by carving out transplant experience
- Drives increased stop-loss persistency
- Eliminates lasers at stop-loss insurance renewal on potential transplants
