

MedicalReferenceEngine.com

Save time and increase your coding compliance with expansive referential and regulatory content.

Trying to find the information you need to code correctly and understand complicated regulatory information is cumbersome and time-consuming — especially when you have to sift through multiple government websites. We've compiled thousands of Medicare and Medicaid documents, local and national Medicare policy information, and dozens of Optum360[®] reference books into one easily searchable database to provide you easier and faster answers to your coding reference questions.

New features:

NEW — Coding page

Increase productivity by accessing reference content all on one page — without going from page to page, searching for the correct reference.

The screenshot shows the MedicalReferenceEngine.com interface. The search bar contains 'THREE DAY PAYMENT WINDOW'. The left sidebar has a tree view with categories like 'Post-Acute', 'Coding Guides', 'Education & Training', 'Medicare Library', 'Regulatory', 'Compliance', and 'Medicaid Library'. Below the sidebar, there are filters for 'All Years' (2012-2006) and a 'Reset' button. The main content area displays search results with columns for 'Posted Date', 'Updated Date', and 'Effective Date'. One result is expanded, showing text about 'three-day (or one-day) payment window prior to the inpatient stay'.

Easily toggle between Optum360, Medicare, Medicaid and code search results.

Access content from Optum360, Medicare, Medicaid, fee schedules, forms, LCD/NCDs and coding content.

Filter search results by source and date published.

Simply click on one of the search results to open the document. Then, MedicalReferenceEngine.com automatically finds your search term and scrolls right to it.

Quick and easy to use

With links to public information and proprietary Optum360 content, all the critical information you need is consolidated into one comprehensive tool. So you find what you need, faster. You can even reduce research time by saving searches or bookmarking content.

Powerful code lookup tools

MedicalReferenceEngine.com features the Optum360 CodeLogic™ search engine, which allows you to search across ICD-9 Vol. 1 & 3, ICD-10-CM, CPT® and HCPCS simultaneously by code, keyword, acronym and abbreviation. In addition, view LCD/NCD, lay descriptions, illustration and Pub. 100 references for each code.

Robust Medicare content

With so many regulatory changes, it's important to stay updated. Find answers to your Medicare-related questions with the robust library in MedicalReferenceEngine.com. Get online access to Medicare transmittals, press releases, Pub. 100 and more, spanning five years of historical information. In addition, search LCD/NCD policies for code combinations for medical necessity edits for all Medicare contractors to facilitate complete and clean claim submission and timely reimbursement.

Search State Medicaid Content

Search State Medicaid Content. Medicaid content now available for some states, in addition to Optum360 and Medicare content. You can now search provider manuals, provider bulletins, fee schedules and forms from your state's Medicaid agency, making MedicalReferenceEngine.com a true one-stop resource.

- Add-on: Medicaid All-States — item #WA28
- Add-on: Medicaid Single State — item #WA29

Customized email notification alerts

There is no need to monitor websites for important changes and new regulations; just tell us which items you are interested in, and we will send you email updates daily or weekly, depending on your preferences.

Access to forms and fee schedules

Using the right form is imperative to reimbursement — but finding the right form can take time. With MedicalReferenceEngine.com, you can access commonly used Medicare fee schedules and Optum360 forms, templates and checklists with a click of a mouse.

Seamless connection with other Optum360 online coding tools

MedicalReferenceEngine.com is integrated with EncoderPro.com and RevenueCyclePro.com. With one login, you'll be able to access all of these applications seamlessly.
