Optum® is a leading health services and innovation company dedicated to helping people live healthier lives and helping to make the health system work better for everyone. We advise our customers and deliver solutions on value-based care, health care quality and access, continuity and coordination of services, and performance improvement imperatives. Optum addresses these needs through solutions based on deep clinical and technical expertise and strong IT capabilities. Optum stands ready to support the federal government with its technology and service needs.

To streamline and simplify the acquisition process, we hold several contract vehicles that enable us to provide a broad spectrum of innovative technology services and solutions for our federal customers. With these contract vehicles in place, we have the flexibility to respond to broad agency requirements in a quick and efficient manner, giving your organization what it needs, when it needs it.

**Advantages of using Optum Indefinite Delivery, Indefinite Quality (IDIQ) contracts**

- Delivers health care services and technology through a streamlined acquisition process
- Reduces procurement lead time and speeds service delivery
- Simplifies ordering process and reduces paperwork
- Enables agencies to procure leading technology efficiently through upfront selection of qualified bidders
- Provides a wide selection of commercial items and advanced technologies
- Offers predetermined fair and reasonable prices
- Allows execution without protest

Optum Indefinite Delivery, Indefinite Quantity Vehicles (IDIQs)

**Governmentwide acquisition contracts (GWACs)**

**NIH/NITAAC CIO-SP3**

The NIH/NITAAC CIO-SP3 GWAC offers a wide range of IT solutions for all federal agencies but with a particular focus on health-related IT solutions. This flexible contract vehicle supports all contract types.

**Multi-agency IDIQ contracts (MACs)**

**GSA Schedule 70, Information Technology (IT) Services**

This vehicle provides a flexible contract for purchasing a wide range of information technology products and services across all federal agencies and state governments. (SIN) 132-51, 62, 33, 34, 32 and 132-56.

**GSA Schedule 874, MOBIS**

This schedule offers a full range of management, consulting, and training services across all federal agencies. It is designed to allow federal agencies to begin or continue management, organizational and business improvement efforts.
HHS Program Support Center (PSC)
PSC offers over 40 services to HHS and other federal agencies and operates on a competitive fee-for-service basis in five key markets: administrative operations, real estate and logistics, financial management, occupational health and procurement management. PSC is the largest multi-function shared service provider to the federal government.

Navy SeaPort-e
This is a Navy contract vehicle for acquiring support services in 22 functional areas including engineering, technical, programmatic and financial management.

Agency-specific IDIQ contracts

CMS Strategic Partners Acquisition Readiness Contract (SPARC)
The Strategic Partners Acquisition Readiness Contract (SPARC) is used to provide strategic, technical, and program management guidance and support services, to facilitate the modernization of CMS business processes and supporting systems. It is available to all components within the Centers for Medicare and Medicaid Services (CMS) and all Health and Human Services (HHS) Operating Divisions to procure IT System development services, from end to end.

HHS Health Resources and Services Administration Evaluation Studies (HRSA)
This vehicle is a contracting mechanism for high-priority, short-term evaluation studies, evaluation and information syntheses, policy and environmental assessments, and performance measurement tools and systems in support of various programs and divisions within the Health Resources and Services Administration (HRSA) under Domain 1 and Domain 2.

CMS Research, Measurement, Assessment, Design, and Analysis (RMADA)
RMADA provides analytic support and technical assistance for models and demonstration programs that are derived under the Patient Protection and Affordable Care Act (ACA). Support includes the design, implementation, and evaluation of research and/or payment and service delivery models to test their potential for reducing expenditures for Medicare, Medicaid, CHIP and uninsured beneficiaries while maintaining or improving the quality of care.

AHRQ ACTION II and ACTION III
These vehicles provide field-based delivery system research. The task orders involved support and study the development and testing of interventions designed to improve care delivery as well as the dissemination and implementation of successful care delivery models in diverse care settings.

DoED Enterprise Development Support Services (EDSS)
EDSS provides an enterprise approach for acquiring, managing the development of, and implementing and maintaining enterprise system development projects in compliance with the Federal Student Aid’s standards and guidelines and the Department of Education’s Lifecycle Management (LCM) Framework.

FDA Enterprise System Life Cycle Management Support (ELMS)
ELMS is used to acquire planning, design, development, testing, implementation, operations coordination and maintenance of FDA’s systems and applications.

DHS EAGLE II
The DHS Eagle II provides a full range of services and solutions in support of developing, implementing, and maintaining technology to support DHS business functions. FC 3 provides independent test, validation, verification and evaluation solutions.

ASPE Disability, Aging and Long-Term Care Policy and Data Analysis (DALTCP)
DALTCP supports policy development and analysis; demonstration and evaluation design; program assessment and evaluation; and data infrastructure development and modeling for ASPE.
Company information
Optum has broad and deep capabilities that enable us to serve all participants across the entire health system. Relationships are at the heart of everything we do. Our government solutions focus on health IT, data and analytics, population health management, health care operations, health care delivery, and health policy research and consulting. Here are a few examples of the clients we serve:

Optum federal prime contract vehicles
